Hello Everyone,

It has been very busy through the long months of our struggle with COVID, trying to keep our families and staff safe. We have served over 70,000 lunches and delivered over 4500 hampers.

Our food truck and van have been very helpful in trying to keep up. We received funding from a number of organizations including MNS to be able to meet community need. We hope to get back to normal services in the near future, always being cautious.

The Round Prairie Elders Lodge is really coming along. Applications will be available soon.

We will also be opening a travelling community resource centre, that will assist people with homelessness, education, health, addiction and all other community needs.

CUMFI Metis Days are Sept. 10-12 at the Western Development Museum. We hope to see you out there. Information attached.

We will also be hosting our children and elder's Christmas dinner this year. Info will be sent out at a later date.

Please stay safe.
